We were advised by the artist that the make-over would consist of a new black key plate, a new red plate and a new yellow plate. A better match of the Kodachrome will result when the yellows in this view are more on the warm pink side and the black key plate is lighter than we furnished in originally running 5BH894.

COLOR INSTRUCTIONS:

DAY SCENE

Unless otherwise specified all street lamps are, posts and trim  
painted silver, sun color light.

EL PATIO BALLROOM (Exterior)

Building white. Box offices, either side, top orange red, cor-  
tion around windows white, black trim running down both sides and  
across bottom. Top all railing white, sides orange red. Pickets  
white. Posts white, orange and black at top. Flower vase white,  
top rim and larger circle trim gold, two side small circles red.  
El Patio Dancing lettering orange red. On porch are some benches,  
back and seat 4 red, along side yellow. Under porch rood buff.  
Porch posts buff, doors oak. Water pipe white. Enclosing small  
photo to show appearance under porch. This could be faked but  
would be well to lighten same. If awning of small building to right  
were up were up few small dolls, etc., used as prize might show at  
left corner, these being actually only four or five inches. It is  
rabbit race up inclined board but at this angle could not be seen.  
Awning should be eliminated and little of inside that could be seen  
at this angle could be faked. Corner building upper right gray  
white. Faint outline dome upper right is orange red -- you may  
decide not worth showing. El Patio sign should be orange, with brown  
tint. Below white portion of box office, it is orange red.

## COLOR DESCRIPTION

#2

Hotel EL PATIO BALLROOM Interior - night

All posts around fell floor, orange red (rail posts) Rails orange red, grill grill pickets black, cigarette disposal boxes light gray. Floor posts and building 10. Small openings like windows showing around balcony really have small black grill but this would not show, they have sun color lighting. Tile sloping downward is orange red. Railings on balcony black. Flower pots balcony orange red and green. Base posts rose. Light fixtures bronze gold, lights yellow rust. Axes on light fixtures gold bronze, with black handles. Moulding just under balcony orange red. Shields on or along wall below balcony, background gray, colors blue and white. Drapes between posts each side, rose. Outside ceiling borders are really screens to catch dirt from above I presume but form a very pleasing black appearance. Center of ceiling is silver gray. Circles on ceilings on which thru which pass light fixtures anchor bright gold. Awnings left side balcony, first stripe 5, then narrow black stripe, then blue then narrow black, etc. Awnings right side, pink, narrow black, very light blue, then narrow black, etc. A. Rounded counter 4, window trim lighter blue. Benches left side 4, lower supports yellow. Window trim yellow, left side. Balcony arch drapes (hardly visible) light blue, edges bright red. Diamond shaped design extending from ceiling. (Flang under ceiling bright gold, second flang bright gold.) This design is of glass and at times is spun, with rainbow colors flashed on it. Window trim extreme right background buff, bench blue. (Circular design just below balcony in rear is gold, panel below rose, bench blue. Four drapes rear, rose. Ornament coming up from floor between two rear entrances, border green, area inside bronz gold, vase part black, with red orange design over part of black; then at rim of vase is bronze gold shield, with silver bronze border and in green lettering "El Patio". In upper center mirror bordered by black

open lattice work, back of which is orange red light. Shield directly above, top left section gray blue background, top right, red, lower left same as top right and lower right same as top left. Wall same to stucco as building proper. Windows above at balcony level, have figured drapes. These instructions starting with circular design (gold) with rose panel below also apply to that portion to left of bandstand. Naturally much of this detail is so small it will have to be faked and am merely giving color instructions for what they may be worth. Two panels each side band stand gold border, 18, with sun flooding at top, designs center panels black. Underside arch over stand 18, gold border, background above arch 10, cloth just under ceiling blue. Seat covers gray and light blue, foreground of scene black, that portion ship rides on white and above gray and ship is bronze gold color. Border from floor of stand rose, above 10. Doorway just to left of curved counter front right rose color as are all posts at base. Of course all lights want to give effect of being on. As before mentioned little windows all along balcony show sun color or yellow lighting.

DAY SCENE

SPEED BOATS

Were this photo to be used 8x10 would reduce background too much. Therefore it should be made up as shown within cutout so as to preserve this exact size. Mrs. Krasner requests we smooth out flower bed in foreground. At present not many flowers, all red and would like us to show several colors. Base this flower bed green. Background of sign is about 14, lettering white (daytime) panels center, above and below as listed yellow, orange red and oriental red. Top of light house red, orange red railing and posts black, trim around glass white. Top large and small balls gold. Tower little lighter than 2B H-513, Tower of Music, May's Landing card. When picture was shot was too hazy to get range of mountains in background. Therefore, kindly take care of this so they show readily but at same time are not out of proportion. Right background, tho hardly noticable, shows different kind lamp post, heavier posts than others, gold bronze. Small portion building showing right foreground is gray white cement Merry Go Around. Top of railings orange red, top square posts red orange, black trim, white pickets. *Longing steps 11 feet, 12 feet, 13 feet, 14 feet, 15 feet, 16 feet, 17 feet, 18 feet, 19 feet, 20 feet, 21 feet, 22 #4 *[Signature]* SKOOTER -- Night Scene.

Of the two photos enclosed, it was decided to use one taken at night. Frankly how they could determine which one we used is beyond me as both were shot from same part or rather same spot. They feel this building looks so flat due to low and long side of building it is their wish same be faded out or cropped to left of sign about as indicated at top by pencil mark on white margin. Anyway, this should make it easier far as art work is concerned. Top front is gold neon. Have indicated color various front panels with yellow or buff cut-out. Panels are divided by strips, like stainless steel. The

large front and smaller side signs, sides and narrow front margin that shows are 18. Neon around outside of letters is white, reflected from blue of sign itself neon from little distance show faint touch of blue. but that blue is hardly noticable. Just across from this subject are sun flood lights playing on panel work of this building. Just below large sign is stainless steel strip and below this is curved panel. This panel is colored as per cut out by same color flood light below. Then below this is another stainless steel strip. Below this are embedded circular lights beaming sun color light. Mr. Kranser has mentioned he likes lights of this type to BEAM DOWN. Four front posts are blue per cutout, with yellow vertical neon deep lighting. Base between the posts same red as lower cutout. Narrow strip just off cement, black. Top of cars inside may just be seen, they are blue, green and red. The fence to right, pickets white, top orange red.

Side, sign same as front and platform on which sign rests same color of blue. Roof white and 30 stripes. Edge running along side just opposite roof, yellow. Under that white. Strip under sign platform, stainless steel, next strip, white. Just under canopy glass panels, reflecting sun color lighting from within. Two vertical strips, stainless steel. Below glass panels, red per lower front cutout. Lower space within BLACK railing same red. Lower left large post same red. Same red continues around lower side building. Slat are yellow. Upper left end front same red as cutout thereon. Marrow strip along side building just off ground, black. Inside back end building and trim, yellow. Believe would make railing, SIDE of building SILVER.

Under separate cover am forwarding hand colored front shot of this subject. Tho our colors do not "jibe" will give you chance to see how someone else treated this night scene. However, on small post card you have to do 'em different. Please return photo, along with others, when job is completed.

COLOR DESCRIPTION

MERRY GO AROUND, Night. Scene.

STAR RIDE, top right, has sun color lights around lower half circle orange red background. Cars are of various colored panels, blue, red, yellow, etc. Frame work stainless steel, which has some sun color lighting.

Building gray white cement. Inside are two neon tubes, top one yellow red, lower blue. Merry Go Around sign, red. Two neon (blue) tubes below sign cast blue on cement border. Gold ball front has narrow panel trim which is little lighter gold than ball. Blue neon lighting small tower supporting ball causes blue of tower to appear rather dark. really is same blue as cutout. You will have to follow your good judgment. Vertical green neon tubing above M in Merry reflect green on this panel. Front vertical panel has pink neon. Small section gold tubing reflects on panel top rear left. Under ceiling Merry Go Around sign are embedded suncolor light beaming down both sides front box office. Sun flood lights reflect down on flower vase and grass -- also note two front left of building. There are also sun color lights inside ride. Horses, etc. Supported by brass rods. Panels front and side box office, center panel silver glass, then glass or mirror and then blue and same other side center. Lower part same blue and lowest part little lighter blue, white stripe. Note other narrower panels,

center silver glass, both sides blue and blue below. THIS is probably more COMPLETE description as to these panels than will be found on overlay. Railing silver.

FUN HOUSE, Day Scene.

While most of trim in this park is orange red, on this particular subject it is orange with sort of brown tint. Where have indicated "darker than 5" on tissue overlay, please make it orange with brown tint.

Woman under canopy blond rope hair, pink and white dress, gray hat, coat 18, white stockings. Drape on stool which she is standing on red and green. Man with drum on wall, black suit and hat, white stripe down pants, edge drum, orange, drum head buff. Man to right red color hair around ears. All these faces and hair, quite red. To right, "A", 18, with 3 vertical yellow stripes, top is yellow. Shooting Gallery circular sign, end Fun House building, black background, white lettering and design yellow. "25 shots, red lettering on white. Shooting Gallery sign, black, red striping. Am enclosing small shot showing shooting gallery with front up as should be on post card. In rear, back wall white. Then one line white elephants moving along, then one line mens heads (red) then line yellow chicks (little chickens) then line tanks (red) and front line, Hitler's face, green. Above are only about large as top part of fist and, of course, are moving targets, last or back row being highest and each row thereafter dropping down some in elevation. Walls each side are merely daubs, left green and right green and brown -- impossible to figure just what, if anything was meant to be conveyed. Moving targets mentioned above would be too small to be recognized. Of course, main idea is to eliminate closed front and fake or fade background. Where I mention any light coloring on tissue, please ignore -- at first it was that this would be night scene. Please note color panels each side top of shooting gallery: if you feel it advisable to change so as to make better blending, OK. You will note roof these buildings, red and black.

Womans stand: Side, yellow. Top strip canopy tin (silver) next orange yellow, next blue, then orange yellow. Lower, tin, orange yellow, blue, orange yellow, blue, orange yellow. Cross slats orange yellow, vertical posts yellow and lower part orange yellow. Part front where boards cross, (X) orange brown, supports black.
